IULTCS 30<sup>th</sup> Global Congress – October 11 to 14, 2009

**IULTCS, 15 January, 2009:** The IULTCS Executive and the CLIA Organizing committee are confident that the 30<sup>th</sup> IULTCS Congress in Beijing will not be unduly affected by the unfortunate clash of dates with Lineapelle / Tanning Tech announced recently. In a joint statement, the President of the IULTCS, Mr. Elton Hurlow and the head of the Beijing Congress organizing committee, Mr. Su Chaoying stated: “We are confident that the leading global leather technicians and executives will choose to participate in the historic Beijing event”. An excellent technical program is coming together under the leadership of Prof. Bi Shi of Chengdu University and a full program of activities is being planned by the organizing committee led by Mr. Su Chaoying and Mr. Chen Zhanguang of the CLIA. The Beijing Congress will provide an excellent balance of technical and social opportunities for participants. The selection of Congress hotel has now been announced as the Beijing International Hotel ([www.bih.com.cn](http://www.bih.com.cn)) – a great choice with well appointed rooms and international conferencing facilities located conveniently in downtown Beijing. This hotel is very close to many of the top sightseeing destinations in the area.

The IULTCS Global Congress is the leading venue for the world’s top researchers to present their latest findings and it is an excellent opportunity for technical interchange and fellowship with leading scientists from around the world. You can learn more about the IULTCS and its activities at: [www.iultcs.org](http://www.iultcs.org), and you can keep in touch with preparations and announcements regarding the Beijing Congress at [www.chinaleather.org/iultcs/](http://www.chinaleather.org/iultcs/). Make sure you register early for the IULTCS Congress, more details to follow.
