

## FIRST ANNOUNCEMENT II. IULTCS – EUROCONGRESS

**ISTANBUL (TURKEY)  
May, 24<sup>th</sup> – 27<sup>th</sup> 2006**

**Hosted by Turkish Leather Technologists and Chemists Society (DETEK)  
Innovation and New Technologies for the Future of Global Leather Industry**

Istanbul, one of the most historical cities of the leather world, bridging the west and the east, will host **IULTCS II Eurocongress**. This congress aims to get the most effective advantages from the latest innovation in leather technology, to develop mechanisms for finding out the solutions to the problems of this sector and to contribute to the formation of necessary atmosphere for this purpose.

Under the main subject; academic and technologic presentations will be given about leather technology covering the latest improvement in the engineering, economy, fashion branches; as well as innovations and improvement on the leather quality regarding wet-end and finishing processes with the environmental improvements, leather machines, and new techniques in technology.

Leaderships from Turkey, Europe and all over the world will discuss participants' and the sector's approach to actual topics related to Leather Technologies. We will be honored to invite peoples and companies who wants to introduce own ideas, products and technologies to Istanbul between 24<sup>th</sup> and 27<sup>th</sup> May 2006.

**Ayşe İçinsel  
Organizing Committee President**

### CALL FOR PAPERS

Authors wishing to present papers are invited to send abstracts to the Scientific Committee according to the following time schedule, written in English, the maximum length of the page shall be A4 format, in Times New Roman, 12, single line spaced including page title, author names, affiliation and full mailing address (including fax number and e-mail address). Abstract should clearly summarize the objectives and results of the study, describe the methodology of the investigation, point out methods of analysis whenever it was applied and finally give a short interpretation of the result obtained. Abstracts should be sending by e-mail to the following address: [eurocongress@detek.org.tr](mailto:eurocongress@detek.org.tr)

The Technical – Scientific Committee will use these abstracts exclusively to evaluate and select the works for acceptance and the Committee will communicate to the authors whether the proposal has been accepted or not and the presentation modalities (oral communication or visual display) until 30th November 2005. Full texts should be sent not later than 28th February 2006.
